Key: E=Excellent; G = Good; F = Fair; P = Poor; NR = Not Recommended; NT = Not Tested

Nitrile = Ansell Edmont SolVex® nitrile latex

Natural = Marigold Industrial® natural rubber/neoprene unlined latex

Yellow = Best Value Masters® lined natural latex

This glove selection does not protect against all chemicals. For aggressive chlorinated solvents such as chloroform and trichloroethylene, order some Silvershield® or polyvinyl alcohol gloves from a safety equipment vendor.
