

Spring 2016 Herbicide Treatment of Campus Lawns

The UW Grounds department will be applying Tri-Power, a selective herbicide for the control of broadleaf weeds to the general lawn areas on campus. Application will be on Saturday May 21st from 6:00am to 10:00am. (Application may be canceled due to inclement weather). Treated areas will be posted and the Grounds Department asks that you refrain from walking in these areas immediately after application, until product has dried. Signs will be removed Monday May 23rd. Question or comments may be directed to the Grounds Department at 608-262-2954.
